Title: CURTAIN APPLICATOR)

RECEIVED

INFORMATION DISCLOSURE STATEMENT APR 03 2002

TC 1700

Commissioner of Patents
Washington, D.C. 20231

Sir:

Applicant wishes to bring to the attention of the Examiner the documents identified on the attached form PTO-1449. Applicant respectfully requests that these documents be made of record in the present application.

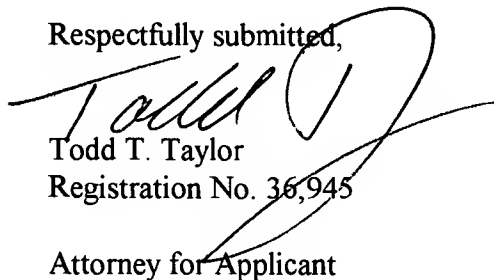

A copy of each of the documents is enclosed.

Patent Document No. DE 197 16 647 A1 and DE 195 13 531 A1 are each discussed in the specification of the present application.

The literature entitled "Industrie-Lackier-Betrieb" relates to an apparatus and method referring to an applicator unit for the application of fillers onto a sheet surface, i.e. a particle board, whereby the development of advantageous filler materials has brought the primary coating of various sheet materials by means of flat coating machines (spatula type machines) into the foreground. Today's designs of the spatula type machines which have been in operation for many years, ensure vibration mark free surfaces due to the chainless drive transfer. The automatic material return from the smoothing roll meets all expectations. Today's equipment also includes appropriate special pumps for the coating material supply.

This information is being submitted within three months after the filing date of the present application, or before the mailing date of a first Office Action on the merits.

Respectfully submitted,

Todd T. Taylor
